WHY CHOOSE FABIZ?

Our University ranks 1st in Romania and 401-450th among Best Universities in the World in the field of Economy and Econometrics. FABIZ brings together +1,500 enrolled students from over 30 countries worldwide with +100 academics and business professionals involved in high impact teaching and research activity.

The Faculty is located in the heart of Bucharest's Creative District, the most lively and active point of Bucharest today. We are incubating local creative ideas for emerging businesses and projects that will contribute to the future development of our city, while offering international development opportunities through our multicultural teachers' cohort.

WHO IS IT FOR?

This program is for professionals working in any sector of the creative and cultural industries:

- Cultural Heritage
- Fashion
- Design
- Advertising
- Architecture
- Theatre & Performance
- Entertainment
- Advertising
- Visual Arts

OUR MISSION

The Romanian urban creative scenes are transforming into Creative Industries. Our mission at FABIZ is to support this development by enabling lifelong career transitions of individuals with a creative background looking to upskill and learn business and management skills in order to better run their organization or scale their projects for international reach.

OVERVIEW

Our program is designed to accommodate students already working within the industry. Combining both academic and professional practice, students engage with real-world business provocations through case studies introduced by industry leaders and our program partners:

CURRICULUM

Managing a business or an organization operating in the cultural and artistic sector requires a set of interdisciplinary skills. Creativity is key to driving innovation but culture cannot be correctly approached without the administrative procedures. By grounding in business skills, students will gain the confidence and ability to design effective processes, in order to improve their practice and reach a higher impact in their work.

1st Semester:

- Economics of the CCI

- Organization and leadership in CCI

- Entrepreneurship, innovation and new business models in CCI

- Budgeting and KPI for CCI

2nd Semester:

- Arts and culture consumer behavior and market research in creative industries

- Identify, branding and communication

- Funding and fundraising for CCI

- Intellectual Property Law

3rd Semester:

- Sustainable management of arts and culture in community settings

- Strategy and smart data in arts, culture and society

- Project and event management for the cultural and creative industries

- Artist management and development

4th Semester:

- Governance, cultural diplomacy and the creative and cultural industries

- Ethics and academic integrity

- Capstone Project internship
